The Union men of Jefferson county have nominated for Senator, Milo Jones; for Assembly, Gardner Spoor, 2d district: Alanson Pike, 3d, and William P. Forsyth, 4th. Mr. Porsyth was Assistant Sorgeant-at-Arms in the Assembly last winter and will make an excellent member. His head is always level.

The Mudison Journal says the mass meeting in that city last Saturday to ratify the nominations of McClellan and Pendiction, was a laughable failure, not fifty persons coming from the country.

A gentleman in Milwankee recently wrote General Cutler to know how the army would vote in November. The General replied: "When the Union army votes for a candidate, ranning upon a platform which is cheered from one and of the rebel army to the other, you may be prepared to see it go over to JeT Davis in a body." Let the cops, put that in their pipes and amoke it. General McClellan will be befeated as badly as General Scott was,

THE North American Review argues that profanity indicates a cronic weakness of intellect and a poor education; for it requires no genius to swear, while it does require some learning and talent to converse in genteel language. Le the profune make a note of this.

The World says, in reference to the war, that "we are fighting to maintain the Constitution." Then, of coarse, this is not " an Abolition war," as the smaller Democratic journals that have no characters to lose, are constantly reiterating.

Wisconsin Politics.

The Milwaukee News says "the thousands of Gov. Barstow's friends in this state will be pleased to know that he is openly and holdly for Geo. B. McCleilan and, so far as his official position will permit, will exert himself to that end." We don't imagine that his "official position" will inter fere with his exertions in favor of McClelan to any alarming extent. He has been separated from his regiment nearly all the time since it left the state.

The other day, aboard the oars, between La Crosse and Minnevota Junction, a vote was taken for President. There was a squad of soldiers aboard. 84 in number-12I, of which Lincoln received 98, and some six or eight other places.ed for Mc Clellan.

He has been neither but nor cold and the people have spewed him act of their mouth. In times like these, the people want to see a man ride but one borse and sit square in the saddle at that. The Madison Journal says the mass meeting in that city last Saturday to ratify the nominations of McClellan and Pendiction, was a laughable failure, not fifty persons coming from the country.

A gentleman in Milwankee recently wrote General Cutler to know how the army would vote in November. The General replied: "When the Union army votes for a candidate, running upon a platform which is cheered from one end of the rebel army to the other, you may be prepared to see it go over to Je? C. A. Eldeldgo, of Fond du Lac, has been renominated by the cope, of the 4th district for Congress. The district is com-*posed of the counties of Ozankee, Sheboygan, Fond du Lac, Dodge and Washington, and contains a large deposit of democratic larva.

THE rebels under Shelby and Fagan, four or five thousand strong, made a series of attacks on the railroad and various outposts between Little Rock and Duvall's Bluff, Arkansus, from the 24th to the 27th ult. The fights that ensued were generally unimportant, but at Ashley Station 400 of the 54th Illinois (veteran) regiment, after a brave defense, were compelled to surrender. FROM THE UPPER POTOMAC.

New York, Sept. 19 .- A Washington special says Friday morning last the enc ny disappeared entirely from the left wing of our army on the Beryville and Winchester pike, and only made a faint skow on our right. This gives surmiso that they had either taken up a line of retreat to Strashurg or had massed to their left and on our right a force for a concentrated movement against us. Gen. Sheridan at once took measures to ascertain the fact and from information obtained, some came to the conclusion that the attempted elever maximum of Gen. Early was only a feint to get troops on our left, to the west side of Openium creek. The trap for money, was discovered and the tabel General. The Time dewarted in his design.

A great mattle for the possession of the Shenandonh Valley, has either commenced or cannot be long delayed.

It is said the rebels have a large reserve

NEW YORK, Sept. 30 .- News from New Orleans by the Continental up to the 13th, has been received. Reports of Certenas' operation in Texas are fully confirmed. It appears there was full understanding between the rebels and the French to joinly attack and capture Matamoras, and that it was frustrated by Cortenas who had put himself between the two forces, and whip-ped both. He then captured Brownsville and turned it over to our authorities, hoist-

ing the American flag.
New York. Sept 20.—The Herald's
Mobile Bay correspondent says an expedition sent out by Gen. Banks has succeeded in destroying the largest salt works in

the limits of Banstor Bay.
Large quantities of rosin and turpen-tine have been destroyed by the rebels to prevent it fulling into our hands. An immease amount of cotton and turpentine has been sent to Selma, in expectation that Mobile might soon be surrendered. The robel Gen. Page has been brought to Fort Morgan, where he is to be tried on

charge of destroying munitions of war in that fort after its surrender. The offence punishable with death. Large quantities of secret ordnance stores have been discovered by our expe-

lition narties. A robel dispatch dated Mobile, the 14th, says there is nothing new. Seven Yan-kee vessels lie quietly beyond the obstruc-

ions. The reliefs made a raid into Labadielle, La., on the 8th, and hurned the vilage, and murdered Mr. Carin, one of the ast Union men in the District.

It is said Dick Taylor has relieved Maue in command of Mobile. The Heroid's New Orleans correspon dent of the 13th says it is reported that Forrest and Dick Taylor have joined forces and number 20,000.

An expedition by gunbants had been sont through the lakes and bayous near Grand Lake cepturing boats, soldiers, horeas and some formatter.

some of the most prominent citizens of Cincinnati and Covington, etc., speaking in the highest terms of Dr. Strickland's Anti-Cholera Mixture for the cure of diarrheea and dysentery. The letters are too long to publish. Mr. Woods, of Covington, says he was pronounced incurable by the best dectors in Cincinnati, and one bettle of Dr. Strickland's Anti Cholera Mixture effected a permanent cure after suffering for months with the worst form of diarrhors and dysen-

Another says he was discharged from the United States service after suffering in the hespital for eight months as incurable, and as a last resource tiled Strickland's Anti-Cholers Mixture. He got well directly and has now entered the army again in good health. One man writes he has cured seven or eight very ball cases of diarrho a and disentery in the barracks he was in with one bottle of this valuable medicine. In fact we could fill half our paper with similar tiems from these letters. Why does not our govern ment secure this valuable preparation? Our atmy ought to be supplied with it. It is but a short time since one of our men lay in a very low; condition at one of our Cincinnati Hospitals, his wife was sent for. The doctors considered his case an hopeless case. She. however, gave him Stricklund's Anti Cholere Mixture, and in three weeks he was able to return home with blanife to New Richmond, O. All these cases alghi at home speak for themselves. A ROUSING APPEAL.

The National Union Committee to all Unconditional Union Men-The Re-Election of Mr. Lincoln the last Hope of the United States Government.

Headquarters National Union Commission) New York, Sept. 9, 1864. § The great rebellion, which for more

than three years has wrapped the nation in the flames of civil war, draws near its erisis. Its armies have been beaten, its territory has been conquered, the forts and posts which it treacherously seized have been occupied and held by the soidiers of the Republic, its foreign allies have been detached from its support, and its hostile arm paralyzed by exhaustion and discouraged by defeat, is upheld solely by the hope of political victories to be achieved by its allies in the Presidential election of November next.

If the people in that election sustain the Government, if they reassert its just authority and reaffirm their purpose to it by war so long as way assails it, the rebellion will speedity end. If they in this determination or loave any room for doubt on this vital point, the rebels will take fresh courage and prolong the contest. Every utterance of their organs and their agents affirms and confirms this position. Every rebel in arms and every robol in office-every robel organ in the rebel States or in foreign lands-every hater of Democratic freedom and the rights of man, longs and labors for the overthrow of the Administration and the expulsion of Abraham Lincoln from the Presidential chair.

THE CHICAGO CONVENTION IN LEAGUE WITH THE INSURGENTS.

the Northern and Western States this hostility has been embedied and organized in the acts and declaration of the Chicago Convention. That Convention gives a silent approval of the rebellion itself and an open condemnation of the war waged for its suppression. Without a word of consure for the conspirators who plotted the nation's death, it brands with unsparing denunciation the patriots and heroes who defend its life. While it passes in utter silence the gigantic asurpation of Jeff. Davis and his Confederate traitors -while it overlooks entirely, and thus, by just and necessary inferences, approves their abrogation of polical rights and personal liberties over all that portion of the United Statas in which they have been able thus far to sustain their usurped authority, it pours out its wrath, without stint or measure, upon every act by which the constitutional President of the United States has sought to defend and protect the life and liberties of the nation, whose

executive power is placed in his hands. That Convention had no words of exultation for our victories-no thanks and honors for the soldiers and sailors who have shed their blood to achieve them. neglect of duty towards our "fellow citi-rens, who are now, and long have been, change the weapons of war for the counsels prisoners of war in a suffering condition, it has not even a syllable of censure for those rebel authorities who, with more than savage cruelty, and in utter disre-gard of every dictate of humanity as well military courts, and hand over to the civil gard of every dictate of humanity as well as of every usage of civilized warfare, have deliberately and with systematic purpose crime and the preservation of public order. inflicted upon those prisoners all the tertures of exposure, of neglect and starvation, and have offered premiums for their in everlasting remembrance, that great murder to the brutal guards to whose grim custody they have been consigned. And, on the very eve of the most glorious victo-ries that have ever crowned our arms; af-the glorious Union for which their fathers ter three years of bloody, costly and suc- and brothers died. cessful war, when three-fourths of the territory originally bold by the rebels has passed into our hands; at the very moment when the rebellion itself is tottering to its fall, and the flag of our country is rapidly advancing to its old supremacy—the party represented at Chicago demands that "immediate efforts be made for a cossation of hostilities"—a step which would instantly arrest our conquering armies, and snatch from them the glories of a final triumph ; repeal the blockade, and throw the whole rebol frontier open to the supplies they so sorely need; seeme the recognition of foreign Powers, and either accomplish their independence or give them the ability to fight for it four years longer.

SHALL NORTHERN BALLOTS ASSIST SOUTHERN BUILDIES? We appeal to the people of the United States-lovers of the Union and friends of freedom-against the consummation of the foul crime which the acts and declarations of the Chicago Convention involve. We invoke them not to sanction these princias they seek the renewed integrity of its themselves and their posterity, not to arrest the blow which is just ready to descend upon the rebellion now tottering to its fall; not to give the rebels time to renow their strength for fresh conflicts; not to aid those who would aid them in overthrowing our Government, in destroying our Union, in plunging into a chaos of anarchy the great communications of which the Constitution makes one great and glorious nation, and in thus extinguishing, finally and forever, the hopes of all who

have usurped. In all essential respects the action that conquer armed rebellion by force of arms shall end by peaceful conference of these the robels ask or need for the consumation The interval will be one of hope and confidence for the rebels, and of exultation for their allies in the loyal States. In the Western States armed preparations have already been made by the deciples and advocates of secession, to follow the example of the South and sever the West from the Federal Union. The success of really is, though so young in years, the Chicago programme in November will is now twelve years old; in good h he the signal for carrying these designs into execution, and the 5th of March will es. dawn upon a new Western Confederacy, aiming at independence, defying the powor of the national sams, and co-operating with the slave power of the Southern States in blotting from existence the free Repub-

THE SKIES ARE BRIGHT—ON TO VICTORY! The skies are bright and full of promise. The lion-hearted citizen soldiers of the Republic march with stendy step and nufaltering purpose to a speedy and glorious victory. The heart of the people beats true to the Union. Every triumph of the Union arms over the rebeil troops arouses afresh the courage and confidence of Unon men, and chills the heart and decimates the ranks of the submission secessionists, represented at Chiengo.

ROUSE AND RALLY FOR LINCOLN, LINCOLN AND THE UNION! We call upon the people to crush all here reliemes, and to brand their autionand allies with their lasting reprobation We call upon them to support the Government, to quell the rebellion, to defend and preserve the Union. We call upon them to stand by the President, who, un-der circumstances of unparalleled difficulty, has wielded the power of the nation with unfaltering courage and tidelity with integrity which even calumny has not dared to impeach, and with wisdom and prudence, upon which success is even now standing the surest and final seal. His dection will proclaim to the world the unalgred and masterable determination of the American people to quell the rebellion and save the Union. It will strike down forever the false hopes and expectations of the robel Government, and poselaim to the people of the rebel States that their only hope of peace lies in abandoning their hostility to the Government, and resuming their allegiance to the Constitution and aws of the United States. We call upon the Union committees and

Union Leagues, and upon all leyal associations in every State, county and town, to perfect their organizations; to infuse fresh vigor and activity into their operations: to canvass carefully and promptly their respective districts; to circulate documents and newspapers containing just and forci-ble exposition of the merits of our cause: to combat by assemblages of the people in public meetings, by public speeches, by conversation, by letter and personal appeals, and in all just and proper modes, the deceptive and perilous sophistries of the agents and political allies of the rehallion. Let them be on their guard against the arts of corruption and of intrigue which will be brought with unserupulous desper-ntion to bear upon them. The robel Governmont, and Foreign Powers most deeply interested in our distruction, could well afford to spend millions in overthrowing this Administration, and placing in power the nominees and representatives of the

Chicago Convention.

A Union victory in November will end the long and laborious strife. It will paralyze the arm of the rebellion. It will disperse its armies, distroy the hope by which the despotism at Richmond now holds its subjects in bondage, release the people of the Southern States from their enforced disloyalty, and gives them again the blessings of self-government within the Union and under the protecting Con-While it denounces our Covernment for stitution and the flag of the United States. change the weapons of war for the counsels of peace, to relax the stern control over public action and public speech which a state of war rendered mayordable, to retribunals of justice the punisuments of and to restore to their firesides and their hames, clothed with honors and to be held army of our citizen soldlers who have bar-

A ROBSE STORY.

The same correspondent says: "Among 'envalvy people' the horse is second in interest only to the man. In fact, thorse and rider' are usually spoken of as one and the same person. Every good cavalry man takes good care of his horse, provided he has a good one; and if he has not, he is mighty apt to take good care to get such. And when he secures such a one, the attachment the brave temper will form for his horse is almost remaintie. You will therefore understand why I consider it not unworthy of the anmals of this war to give the rather remarkable history of as gallant an animal as ever snuffed powder, now owned by an officer in our cavalry command, and mounted upon which he less been some forty

times under fire. Neltie was born and raised, till she was six years old, in Athens county, Ohio: was there sold to her present owner an ger aut of her foreiness for her neighas pasteres and grain Selds, and her a ral disregard for fonces, whether rail, pleket or hedge. She was taken into the envalry service in 1862, but could not be rode in line on account of her high spirit. By reason of her being a 'hard rider,' e., trotting, prancing and going 'sidewise all the time, making it decidedly uncomfortable for the rider, she was not used; being kept only as a per till John Morgan's first raid through Kentucky, Indiana and Ohio in 1863. Her owner rade her six days on that raid, and was complotely worn out by her restlessness and fretting. He then put a black boy on her who rode her during the remainder of this whole raid, riding her twenty-seven

days and most of the nights, from Som-eret, Kenineky, to Bullington Is-land, Oldo, following the trail of Morgan with General Hobson, and thence back to Stanford, Kentucky; in all a distance of almost one thousand miles. After resing only two days at Stanford, her owner rode her with General Eurnside's advance across the mountains into East Tennessee; and rode her every day through that compaign. Insting from August, 1803, tr April, 1804, and in every engagement which his command was in. In one engagement, her owner, while riding her, ran into an ambush of the cuemy, a part of her bridle-bit was shot from her noteth, leaving the rider only one rain; pulling too hard on that, her head was so suddenly turned that she fell with him, and the rider was taken prisoner. Springing up she escaped and swam the Tennes see river and rejoined our cavalry with the Federal troops. Her owner also escaped and came in a few days after. She has three times crossed the Cumberland Mountains where forage has to be packed on mules for a distance of one hundred miles, and three times made the march

from the Tennessee Valley to the Blue region of Kentneky. "In the engagement at Cynthiana, Ky. June 12, 1864, with the rebels under John Morgan, her owner rode her in a cavalry charge upon the rebel retreating column. She leaved a stone wall with him and carried him so close to the rebels, that, the blood from the wound of a rebel shot by her rider, splashed over her face and cars. On the recent march from the Blue Grass region of Kentucky, to join the army near Atlanta, a distance of over four hundred miles, she had no rider, and was neither bridled nor haltered during the whole march, lasting twenty-four days, keeping her place in the march during the day and staying close in camp at night. She has more made a false step of her own fitall, even on the worst of mountain roads and in the darkest nights. She knows the whistle of a bullet or the shrick of a shell and the direction of their flight almost as

well as her owner does." "Ween the Administration puls its polie jua prijer, we must support it, whatever w think of it individually. When you hear a man finding too much findt with the Aduinistration, you can rely on it that in se-out he is apposed to the war."—George B.

After having played on the Piano of Messra. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them, the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly romarkable for their qualities. The base is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystaline), and I do not nesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal if not superior to the best monufactured in Europe of this country by the most ecicletated makers.

Massel June & Econse-Godience: I have recently been ideating under the distressing effects of indigention, accompanied by a pro-tention of the nervous system. Namerous remedies were recommended by friends, and some of them tosted but without reflet. Your Bootland's German Erfors were recommended by persons who had tried them, and whose favorable mention of the Bitters induced no also to try them. I and confess that I had on aversion to Patent Medicines, from the "thousand and one" quark: "littless," whose only aim seems to be to paten of sweet need and drugged Equic upon the community. In a sly way; and the tradecay of which, I fear, Is to make many a conferned drunkard. Upon learning that yours was really a medicinel preparation. I took it with happy effect. Its action not only upon the somach, but upon the nervous system, was prompt and gratifying. I feed that I have derived grow and permanent benefit from the use of a few inities.
